URETHANE BOARD REFINISHING

1. Remove boards from your Aqua Cycle.
2. Clean the boards thoroughly using soap and water, let dry completely.
3. Prime boards using a premium primer, such as "ZINZER 123" and let dry per manufacturer's instructions.
4. Finish with an oil-based exterior paint (original color – bright white), let dry per manufacturer's instructions.
5. Re-install your boards.
